Space Adventure

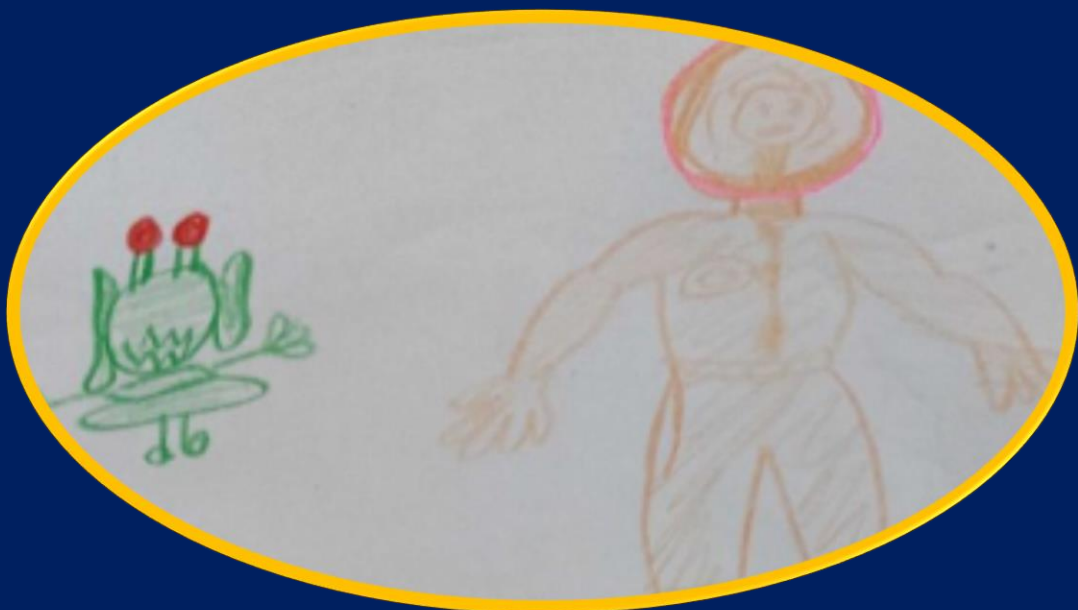

Salma Abusafaqa (1A)

On a rainy cold day of December, I could not go out to visit my grandma so I decided to be helpful and tidy the basement. I am Lolo, a 6-year old girl and I have a ginger cat called Meowy. My cat and I went downstairs to the scary dark basement, we fetch and fetch to find a light because it was so dark.

We found an old dusty box full of old stuff. I saw a colourful light. I have tried 1 and 2 but it won't work but when I clicked 3 it suddenly glow and start shaking. I found myself inside a weird rocketship full of mysterious buttons and am wearing a colourful space suit with a sphere helmet.

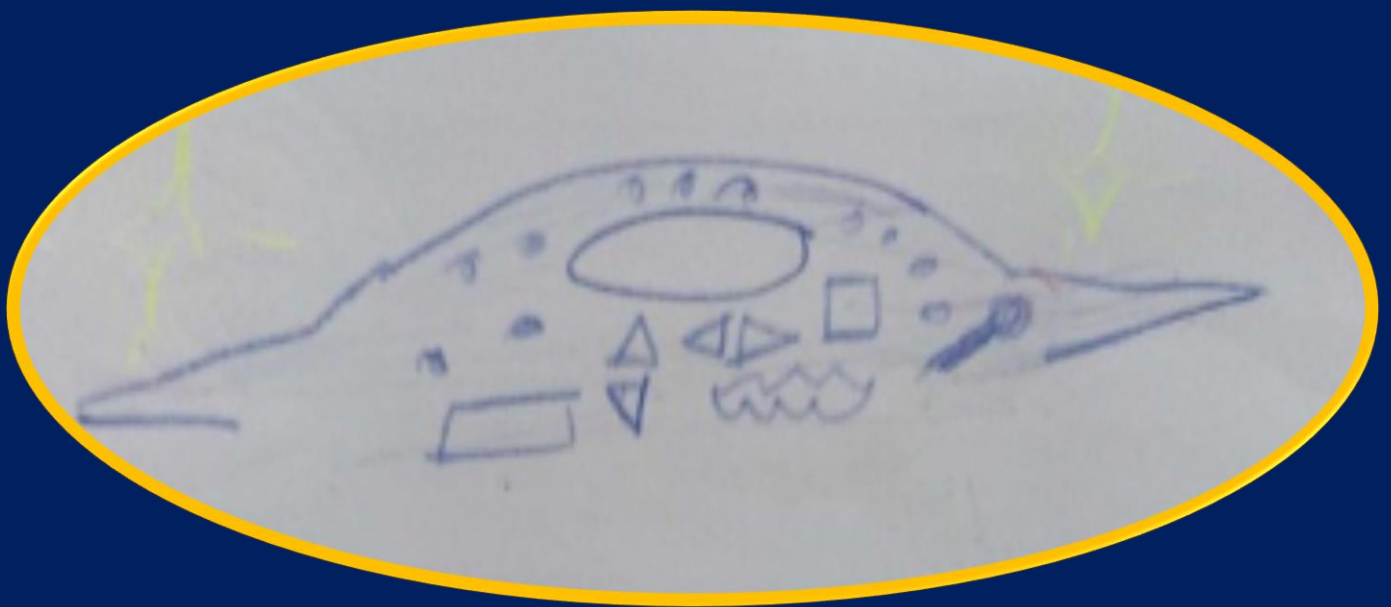

Also, I saw a strange creature with long ears, 2 red eyes, green body and 3 fingers doing a handstand, yelling in horribly bubbly voice that I cannot understand.

I feel confused until he smile and point to the window. I looked outside and I was so amazed to see a family of aliens flying through the wide space and waving to me.

Suddenly I touched the glass of the window and it sparkled and took me back to the basement. I was happy to be home.

I wonder what will be the next adventure!!!

Space or Future?

Pierre Issa (2A)

One end of the week, Roger, Rocket and Carol were at Rocket's house.

Roger thought that they go to space but Rocket and Carol refused to because it would take sixty years going to space plus two years to be on the moon!!! For that reason, Rocket thought they go to the FUTURE. Exactly one month later they made an enormous time travel machine. They set it up and went 10,000 years in the future!

Everything was totally incredible. There was no such thing as police but there were Mandalorians. There were robots instead of humans.

When they set the time travel machine, they set it up for six hours because they have time to eat lunch. They were so impressed that

Rocket, Carol and forgotten to go back home! The machine had vanished and their tents too.

‘What are we going to do now?’ said Roger.

‘Aha!’ said Carol, ‘We can go and search for an inventor robot that can make a new time travel machine’.

‘That’s a great idea!’ said Rocket. ‘We can possibly do that,’ said Roger.

One day later, they woke up very early and went to a large factory that makes all sorts of robots. They spoke to the robo manager Lindy and she agreed to make another huge time travel machine. After six days, they got the machine and time travelled 10,000 into the past.

They all went back to their houses and had a super cold lunch.

You will find a box in the back of the car, inside it a magic key. It can take you anywhere at any time you want. Only imagine where you want to go. Keep this key in the safe.

Your grandfather.'

Rakan was very excited. He took the key and went to his friend Ali. Rakan told Ali everything about the key. They decided to use the magic key to travel to the pharaonic era to see the pharaohs build the pyramids.

Peek Into the Future

Majd El Hamra (2C)

Crick, crack, drop.

“Oooops!!! I knocked down my grandpa’s boxes!” Majd, a 7-year old curious boy, loved to spend time in his grandfather’s basement.

“What is this? Wow!” Majd gasped in surprise holding a rusty telescope in his hands. He thought he would be able to see the stars. He couldn’t for the night to come. At 7.30p.m. he put on his scientist hat and looked through the telescope. Instead of seeing shiny stars, a bright light appeared and took him to the future.

It was nothing like today. He was in a diamond Iron Man suit and people had weird pointy hair!! Also, cars were flying. There were laser beams and floating buildings: However, the strangest thing was that trees were orange and the sky was purple.

“Oh my god, is this our future?!”

BOOM!!

The telescope was shook and the light went away.

Majd was in his room after a magical adventure.

Lost in Time

Yaseen Salem (2C)

Once upon a time, I was sitting in my room with my multi-coloured parrot called Rainbow. He is the most talented talking parrot. We always chat and share everything together. I was telling him about my passion in the world, which is dinosaurs and their life.

Suddenly, I have got a wonderful idea! I told Rainbow: 'Let's go use our old magic car to go 65 million years ago to see real dinosaurs.' It actually worked!

Then we found ourselves in a big forest full of tall trees and small bugs. We can also smell the dust.

There was a big t-rex. It is a carnivore, it has a lot of sharp teeth and it's a deadly predator. We found a speedy velociraptor, which is also a carnivore, very fast and sneaky. We also found some giant brachiosaurus with a long neck. They are herbivores and eat thousands of leaves. We finally found a fast troodon. It is a really mysterious creature and it is an omnivore.

Rainbow was very scared from all these dinosaurs so he flew away and stood on top of a tree. I was very happy.

At the end, it was time to go home. We went to the magic car and it took seconds to find ourselves in my room again in the year 2021. What happened was unbelievable! I went to my parents about the special adventure.
